Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, proucing for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pal id complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE
is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

P. DILLEMANN y Ca., para evitar juicios erroneos en el asunto de la marca PESCADO, hacen constar:—
1°. Que sacaron en el año 1874 Patente por la marca PESCADO en Francia.
2°. Que sacaron Patente de la marca PESCADO en el año 1876 en la Republica Argentina en toda forma para los articulos de FERRETERIA y CUCHILLERIA que acostumbran introducir en este mercado, como marca de COMERCIO y de FABRICA, la cual les fué concedido para SU USO ESCLUSIVO. La Patente fue publicada durante un mes en los diarios, segun lo prescribe la ley, sin que hubo alguien que hubiera protestado contra ella.
3°. Que habiendo sido introducido una imitacion y falsificacion de su marca, acusaron criminalmente la casa que habia cometido este delito. La casa en cuestion, los Sres. Mantels y Pfeiffer, fue condenada y la sentencia publicada en los diarios por cuenta de ella.
4°. Que recien durante la tramitacion del proceso la casa de Mantels y Pfeiffer buscó hacen valer la patente de un fabricante en Francia a la Carpa, y pidio su registracion para Coutaret Denise y fils, la que les fue negada por la oficina de patente por ser PROPIEDAD EXCLUSIVA de P. Dillemann & Co. en la Republica Argentina, como marca de COMERCIO, y de FABRICA.
5°. Por ultimo recurso se dirigio la casa de Mantels y Pfeiffer al ejecutivo en apelacion para obtener el registro de la marca Carpa, y el Exm. Gobierno ha tenido a bien, concederles parte, de lo que es PROPIEDAD NUESTRA, adquirida en toda forma, como lo prescribe la ley.
6°. Al fin diremos, que todos los ferreteros que vienen a nuestra casa, saben que si la marca Pescado ha adquerido una cierta fama es porque hemos trabajado durante muchos años, a espender los articulosde esta clase en la mejor calidad.
En cuanto a las apreciaciones, que ciertas personas se han permitido hacer de nuestro modo de proceder, no hay necesidad de defendernos, 33 años de vida comercial en esta plaza bastan para habernos hecho conocer.

SPECIE PAYMENTS.

The new and altered condition of the Argentine Republic is beginning to show itself, not only in the rapid increase of our trade, but in the changed views of the public mind on questions linked with a 'politica' now defunct. Public men begin to see their way clearer out of difficulties which that 'politica' alone created, and public writers in the opposition ranks have the honesty to abandon opposition, carried on merely for the sake of opposition, and to admit facts which strengthen the credit of the country and its Government.

The very able article of the *Nacion* on 'curso forsoso' last Sunday morning has received all the attention from the mercantile community that it well deserves, and the frank and straightforward admission of our colleague, that the country is in a position to return to specie payments, carries with it the double weight of wide-spread conviction and generous appreciation, coming as it does from a quarter where politics too often blind the judgment.

The following is a translation of the article in question: it embodies all our own views on the matter and so ably expresses them that we feel much pleasure in giving it in 'extenso' to our readers:—

A morning paper, treating on the gold which the National Government will receive from the loan, suggests that several millions be applied for the extinction of forced currency inasmuch as, all the money cannot at present be employed in extending the railways. Although forced currency is a calamity, such advice should not be given nor listened to. The law of contracts creating the loan cannot be altered without violating the faith legislative acts deserve. It is improper, illegal, and immoral to employ for other purposes the funds which the Government borrows for the extension of its railways. We apprehend there can be no dispute on this subject, even although the Government does not know what to do with the money, which we very much doubt; but, we shall treat now, although hurriedly, on the great question which our colleague proposes—the abolition of forced currency, a question of the highest importance, and which later on we shall treat more at large.

Forced currency, as it exists, created by law, is necessarily bound up with the question of gold, circulation, and the monetary system of the country, and even with the 'patron' which regulates the value of money; to abolish, therefore, forced currency, is extremely difficult, although beyond doubt we ought to try to do so, in order to restore the country to its normal condition in a matter of the most vital, the most general, and most necessary, such as the fixing the values of money.

That forced currency is an evil none can deny, one prejudicial to private and public wealth, that sweeps off the profits of commerce, of industry, and of the labours of man, and becomes a mortgage on our future: nevertheless, some think it is good, and the great writer Bomen considers the only essential part is that the public knows that with the paper money it can pay off and discharge its obligations, and in the 'American Political Economy' it is laid down that paper money is as good as silver coin, whenever it serves to pay off debts or make purchases; and this is the argument used by the friends of the 'Greenbacks' in the United States; but MacLeod exposes this false doctrine, and charges it with the disappearance of public and private credit.

Forced currency is in reality a revolutionary circulation introduced owing to the absence of gold and silver. It is a sacrifice imposed upon the general weal, and establishes an increasing speculation in gold, a depreciation in national values, and increased dearness of foreign manufactures.

Every country under the sun has experienced forced currency, and every nation has tried as quickly as possible to get rid of it.

England had forced currency from 1797 to May 1821, when she resumed specie payments. France on various occasions had it, and in August 1870 the French Legislature passed the present forced currency law. The United States and Italy also had it, likewise Brazil, Chile, Peru, Columbia, Mexico, and ourselves, on various occasions, since the law of 1826, which forbade the bank to pay its notes in specie for two years, as will be found in Dr Garrigos's interesting Memoria.

When Congress meets the proper opportunity will arrive to study and determine the duration of forced currency, and the means to be adopted for its abolition, without causing losses or bringing on a crisis.

Forced currency, it must be admitted, is an undoubted calamity, which must be abolished as quickly as possible, in order to emancipate industry and commerce from the weight which it places on them, and which checks their development.

But how shall we dispel this calamity and abolish forced currency? The industrial situation of the country is most prosperous, and the blessings of Providence are being rained on the country in every quarter. We have a greater floating capital than any other country in South America, and we firmly believe that the Republic is well able to shake off this forced currency, which weighs it down, if the Government adopts prudent, careful measures and works the elements which it has within its control. What are those elements? We shall only refer to the two principal ones. The first is to make the revenue and the expeditures of the country balance; the second is that Exchange on Europe be above par

In Italy, as with ourselves, the great questions for the abolition of forced currency is financial equilibrium; if in our Budget we cannot show a real and effective surplus, then we can do nothing. Italy has been able to abolish her forced currency owing to the surplus in her revenue for 15 years.

"It is useless for us to try to abolish by law our forced paper currency if the country itself is not in a position to do so. But we think the country is in such a position, and possesses ample means to abolish the forced currency.

"In a recent article published in this paper on our foreign and home trade, we showed that the balance of trade was completely in favour of this country, and that the balance is constantly increasing, and that

the value of our exports is far and away exceeding the value of our imports. Furthermore, it is an admitted fact, the annual increase of national wealth, the growth of commerce, the development of industry, and the constant importation of fresh capital and fresh hands; and on these giant elements the general peace, prosperity and progress of the country is secured.

We announce, therefore, that the country is in a condition to abolish 'curso forzoso,' which can be easily achieved by certain financial operations, on which we shall treat later on.

THE RACES.

3 abril 1881.

The Hipodromo Argentino is gradually raising the fortunes and the popularity of the Palermo turf: the meetings of late have been more crowded and more successful than in the past seasons, and the Committee well deserves the applause and support of the public. Sunday's races were well attended, in spite of the shower of rain in the morning and the threatening aspect of the weather: the one o'clock express train was crowded with parties eager to witness the event of the day—the Blissful race.

In the Stand we remarked several families and all the leading turfites of the day. The course was in excellent condition and the weather was just the right thing for both jockey and steed. In the neighbouring 'potrero' there were crowds inspecting the horses—a rather difficult task, as they were so well covered: the owners of the horses might well afford the public the pleasure of judging the animals more accurately. Ibrahim looked in excellent condition, a little heavy, and showing his heels to all. The mares booked for the Blissful race were all fine looking animals: Mr Casey's two mares and Mr Anderson's Linda were decided favorites. Oriana was heavily backed. Mr Church's Avelina looked very well. In fact the horses all looked well, and it was a pity that they could not be better judged by the public.

The issue of the first race was evident, and betting was two to one on Druid.

First race—½ round; prize $2,000 m/c.

1. Druid, H. Lozano.
2. Centinela, 1st Regiment of Cavalry.

Both horses got off at a good start, Druid slightly shooting ahead: Centinela kept well up half-way, when Druid put on a spurt and won easily by a length. The prize was not much, $2,000 m/c, and the entries: Druid was entered for the second race, but the owner objected, not wishing to try the animal too much.

Second race—½ round; prize $2,000 m/c and entries.

1. Huerfano, M. Castex.
2. Nihilista, R. Lanus.

The result of this race, as in the previous one, was evident, and all the betting was heavy on Huerfano. Huerfano was kept in hand until the final turn, when he shot ahead of Nihilista, winning by several lengths. Both races offered little interest to the public.

Third Race—Two rounds; prize 8,000 m/c.

1. Eureka, F. B. Bosch
2. Gato—L Alvarez.

Betting 2 to 1 on Eureka.

At first there appeared to be some hitch, and it looked as if the race would not be run. Both horses cleared ditch and fence well, Eureka leading the whole first round, when Gato came up at the ditch, but was gradually distanced by the favorite, who won easily. There was not the slightest doubt that Gato was the better horse in the leap, and, if better ridden, might have tried Eureka hard. Gato's jockey was vociferously hissed: the race was a very slow one, and steeple-chasing evidently in its infancy; happily no accidents happened as in the fore-last turf meeting.

Fourth Race—½ round Blissful prize 25,000 m/c. For fillies mestiza foaled after June 30th 1878.

This race created great excitement, and the knowing ones were unmercifully let in. Betting was at fever heat, the field offered against Dinah and Oriana. The betting, more especially on Oriana, was heavy. Linda was also heavily backed. At the betting-box tickets on Linda ran short and the incognita Judith modestly mustered 20 takers, against the Favorite at over 180. The Atholina, Carola, Rosette, Calma and Lucrecia were withdrawn, and eight horses ran. Time 56 secs.

1. Judith, M. F. Marenco
2. Placida, S. Zapiola
3. Gitana, L. Correa Morrales.

The eight horses got off well, betting rising heavily on Placida and Gitana, as they rushed rapidly round the corner, Placida going for the post like lightning; at this point many tried to save their stakes by betting furiously on Placida, when a beautiful mare, splendidly ridden, and lagging behind, rushed up magnificently and reached the winning post, Placida hot behind. At first nobody knew the name of the winning horse: it turned out to be Judith, and Mr Marenco was congratulated all round, even by those who had never been so awfully let in before. Judith's jockey deserves a gold medal for his riding. At the betting box, parties who invested 50 m/c on Judith, got back 1,024 m/c. On the stand money flowed in abundantly to those who had taken the field against the Favorites. Judith is entered for the Derby; Placida is a fine animal, and fast as lightning. Had the race been one round, instead of half-one, it is very probable that the Favorites would have come to the front; the winners do not appear to have much lasting power. The health of Judith was drunk by a host of Mr Marenco's friends.

The last race was a walk over by Ibrahim, as Eureka would not run. As the rain came down in torrents the stand was emptied; closed carriages were at a premium; many had to jump into jaunting-cars, or mount horses, drenched to the skin.

Had the weather been fine there would have been twice the number of people at the races, and a few more important prizes would attract thousands to the Hipodromo.

MONTEVIDEO.

The atmosphere is pregnant with gun-powder, and any day we may expect an outbreak. The press is urging events to a head, and nobody can foresee the final results of the present seditionary campaign. Authority is a mere shadow, if revolution is openly preached in the columns of the newspapers; if President Vidal wishes to maintain order, he must muzzle the editors, as their hydrophobia is contagious and threatens to bear away everything. Revolutions in Montevideo are far more serious concerns than in Buenos Aires; the Oriental is more sanguinary and high-tempered than the Porteño, who fights outside the trenches in patent leather boots and Parisian clothes. Here we fight to the knife in our very streets, and all the worst instincts of man rise furiously against any opposition.

Previous authorities have shown their energy in such circumstances, and no doubt even the present milk and water regime will not hesitate to quell sedition in blood. But unfortunately there is an understratum of distrust manifest in the majority of the people and they reckon on the troops' bayonets flashing in the electoral arena. Every time a Montevidean looks at the Matriz events are foreshadowed in his mind; the next election there will be a battle-field and the electors may be butchered in the plaza, as happened not many years ago; those days were the Ides of March of the B. Oriental, and their repetition is no very problematical issue of the present situation.

Who can confide in a Government that lives in a perpetual Cabinet crisis, or in a people who live in a natural volcanic state, whilst the country at large has been a hotbed of civil strife, manured with the blood of patriots, fallen during the last generation. The fact is so melancholy and true that there are few young Orientales left, and the present seeds of dissension are disseminated by those whose history has been revolution from the cradle. The background of the present picture is darker still, and all elements seem combined to rush headlong into anarchy and despotism.

Rumours of all kinds are floating in the atmosphere; last night it was whispered that all the troops in the barracks were ready for an impending emergency; it is scarcely credible, but there is no doubt that 10 men can make a revolution in Montevideo at the present moment. Should such an event take place the Varzin invalid with the portfolio of war, will soon jump out of bed. Meantime Latorre's prospects are brighter than ever; the many who distrust Santos confide in the ex-Dictator, as they know the worst of him, whilst the other is as enigmatical as the sphinx in the Sahara. As regards Vidal, he will be ushered from his presidential chair with the applause of all, as he has clung to none and deceived all. His administration has had no fixed policy, except that of deceiving both friends and foes; this is the reason why there are many who would rather be ruled by Latorre than by the present tea and sugar Government.

As events succeed each other we all hope for the best; all clearly comprehend that another revolution plunges the country still more deeply into bankruptcy, jeopardizes the independence of the country and threatens to bring on a protectorate of both Brazil and the Argentine Republic; all the eloquence of Blanco, Ramirez or Herrera Obes will not save the country if the present revolutionary press is not muzzled and perturbators removed far away, farther than Latorre, if possible.

The prospects are gloomy enough; anybody who visits Montevideo will not fail to notice the crowded barracks and the special care bestowed on the soldiers; you meet military men in every direction. These soldiers, before Latorre wielded the sceptre of power, were poorly clad and fed; they owe their comfort, their pay, their bright uniforms to Latorre. Any invasion from Yaguaron would meet with feeble resistance, when anarchy rules in the capital and distrust is disseminated in the very ranks of the army. The papers have not yet asked the troops to desert, as on your side of the river not long ago, but that corollary will come soon.

Several weeks or several years will tell how the Uruguay will get out of the present mess. There is one fact that stands like a rock: Orientales will never again proclaim a doctor-in-medicine president of the Republic; surgeons are never fit for statesmen, and Dr Vidal is the best proof of it; all his measures, have been so many nauseous medicines, which have irritated the bile of the Montevideans. The castor-oil Cabinet is hooted by all, and dissatisfaction on all sides undermines the Government. With a medical man at the head of the Government, an ex-printer's devil on the frontier, and thirty editors preaching revolution over the country, it is no wonder if we all feel as if on the eve of some catastrophe.

EDITOR'S TABLE.

The R.M.S. Minho arrived at Montevideo yesterday from Southampton, with London dates to 8th March; her mails will be up to-day.

The demand for boxes at the Colon has commenced. All the lower tier are already gone. Mr. Unzue has rented the box of the Castro family, in the grand tier, 'avant scene,' for $3,000 for the season. President Roca and Vice-President Madero have both purchased boxes in the Opera House, in perpetuity.

A full account of the races at Palermo on Sunday will be found in another column. The attendance was fair, and the rain did not spoil the sport so much as might have been expected. A lot of cash changed hands. Fifty dollars in the pool gave $1054, and at the betting auction a horse bought for $300 m/c gave $10,000 m/c. So much for the R.P. turf.

Rockets were the first thing going yesterday morning. They came from the *Nacion* office and were followed by a bulletin announcing that the preliminary meeting etc. in Chile for the Presidential election there have commenced with great 'vim.' Baquedano and Santa Maria are the candidates, and the race is expected to be very close. The Conservatives go 'solid' for the conquering hero, and many of the Liberals also, Santa Maria having the rest of them. The election of Electors will take place on the 1st June.

There were two or three thousand people in the Italian Exhibition on Sunday, to see the Bouquet Show. Mr Peluffo won the prize with three charming 'ramos'—one for a bride, the other showing the Italian colours, and the third a theatre bouquet. They were all three superb, and would fetch their weight in gold in Covent Garden.

The fete at San Fermin, Dr Irigoyen's estancia, Rodriguez, was one of the grandest ever seen in the camp. 12 carriages awaited the guests at the Railway station, to convey them to the estancia. The guests arrived at the estancia at 9 o'clock, where they found the host and hostess awaiting them; nearly a hundred friends assembled beneath the hospitable roof. At 11 o'clock there was High Mass celebrated by Dean Dillon in the private chapel adjoining the estancia, which is quite a gem of art; the altar was most beautifully decorated, and the choir composed of the members of Dr Irigoyen's family, who were assisted by professional singers from town: the music, both vocal and instrumental, was equal to anything we ever heard in town. A grand banquet followed the religious ceremonies and was served up in one of the beautiful avenues leading to the estancia, 'carne con cuero,' together with all the delicacies the 'Confiteria del Aguila' could afford. The estancia and its environs were decorated with flags and triumphal arches. The guests strolled over the grounds, and many who visited the place for the first time were astonished to find such a variety of plants and profusion of flowers. The 'monte' covers 25 squares, and the pleasure grounds about 4 squares. At the back of the estancia are some 200 squares alfalfa potreros; the alfalfa is never cut but the cattle turned over it. The estancia comprises 3 leagues of land and is watered by two rivers; the whole property is well fenced and the sheep are some of the finest in the country. Dr. Irigoyen, with his proverbial affability, dispensed the hospitalities, and the guests, after passing a most pleasurable day, returned to town in the half past 6 o'clock train, highly pleased with their delightful excursion.

The Typographical Society held its annual meeting on Sunday and elected its 25th Board of Directors, to wit: Mr John O. King, President; Mr Martin Fogel, Vice-President; Mr Domingo Ferriol, Secretary; Mr Agusto Pinilla, Assistant Secretary; Mr John Huggard, Treasurer, eight members and five substitutes.

The latest papers from Panama say that the arrival of the Lesseps engineers there has created quite a social revolution. Everything has gone up exactly 100 per cent in price: rents, eggs, chickens, hats, umbrellas and pocket-handkerchiefs, while the price of land has gone to the skies, and 'camerones' (whatever they are) have advanced 500 p. cent. and only two of them can now be had for a dime, instead of ten, as formerly. Special preparations were made to fleece the engineering party in the way of rent, &c., and there was a howl of the most agonising desperation when it became known that the engineers had long ago had the measure of the Panama people taken, and had brought wooden houses with them, to live outside the town. The only general news is of the great frost in Guatemala on the 10th February. The cane and coffee crops were all destroyed in a night, and the water in jugs and buckets frozen over. There will be an International Exhibition in Guatemala in 1882. Costa Rica is going ahead in the way of railways, and agriculture. In Colombia they have had a little go at the old game—Revolution—the Provincial versus National Government, but it was a mere flash in the pan.

The Opera House was crowded on Sunday evening, 'La Favorita' was given. All the artists were suffering from the recent violent changes in the temperature. The contralto had a cold, the barytone's voice was tired, and our old friend, Etienne, had diptheria. M. Jourdan sang well—'Un ange femme' he sang with expression, very badly seconded by the basso, whose voice mainly consists in throat notes. The barytone, who has a very good voice, was fatigued; he nevertheless rendered 'Pour tant d'amour' very well: he might be reminded that his bearing in the circumstances should answer his temporary situation as King. The 'O, mio Fernando' of the contralto was a most difficult task for Madame Privat, who, nevertheless, overcame the difficulty. It is a pity to witness the free and easy demeanour of some parties in the theatre, who remind one of the medical students in the 'gods' of the old Dublin Theatre Royal.

While the R.M.S. Douro was lying in quarantine at Flores Island a seal, one night, kept swimming round the ship, uttering a wailing cry, which did not improve the slumbers of the passengers. In the morning it was still there, and the sailors lowered the ladder to the water, to see what it would do. To their astonishment, the seal at once began to ascend the ladder, but when it was half way up, the sailors began to haul in the ladder, to secure the prize more quickly, and it jumped back into the sea. Again the ladder was lowered, and the seal walked straight up it, jumped on deck and made for the saloon. The sailors now have it secured as a pet. It is really no wonder that the 'elite' of Buenos Aires select this splendid steamer for their travels, when we see the very denizens of the deep forsaking their native element for a berth on board her.

We have a letter in our office for Teniente George H. Barnes.

We have received a letter from Mrs Wignall Wilkinson of Liverpool, enquiring about her husband, Mr Wignall Wilkinson, from whom she has not heard for two years: also about his brother Mr John Wilkinson, who lived here for many years. We would feel obliged for any information that might allay our correspondent's anxiety.

We have been favoured with the last number of the *Nueva Revista de B. Aires* which is under the able direction of Dr Vicente Quesada. As usual it is full of high-toned matter; some of the articles would do honour to the best of European magazines.

We feel much pleasure in saluting our Rosario colleague the *Independiente*, on its fourth birthday anniversary, and we hope it may reach its 404th in due time. Our colleague acts up to its name and is always high-toned, moderate, and newsy, and as such we wish it continued success.

The latest report about the Southern camps is that they are bad from town to Ranchos and good from there to Azul. The rain has been general.

We have the *Eco* of Bogota, if any subscriber wishes to read it. The only news we see in it is the death of Dr. Toro, some great man in that quarter, as National honours were decreed to his memory.

There was a 'scene' at the Mercado del Plata on Sunday, when a 'gommeux', passing by, chucked a pretty servant girl under the chin and immediately had a slice taken off one of his lean calves, and his Sunday trousers torn to bits, by a magnificent Newfoundland dog that was with her. The dandy roared with pain and the bystanders with laughter, 'serve him right' being the unanimous verdict.

The favourite old Proveedor is to be touched up, her dining saloon enlarged, new beds put up and other improvements made in her, so that her oldest friends won't know her. Another score for Captain Bruce.

Somebody is violating the Game Laws. Partridges are already appearing in the market, although the close season has not expired. The market men say that the birds committed suicide, and were not murdered.

The extension of the Andine Railway is going ahead rapidly. There are 2000 navvies at work. The Rio Quinto Bridge is in its place, and the rails are laid down for some miles beyond it. It is expected that the locomotive will be heard whistling in San Luis early in July.

The Police Department was put into violent motion on Saturday last by the secret telegraph line from the Provincial Bank sounding an alarm. A posse of policemen at once turned out and made at 'the double' for the bank, where they found that it was only the President of the Bank showing some of his fellow-directors how to manipulate the wires.

The War Minister and the Council of Health are now considering the advisability of declaring a fixed period for quarantine every year, so that merchants and passengers here and in Europe may know what to expect, and make their arrangements accordingly.

One of the National Bonds held by the National Government in the Bank of England was drawn in the last amortization. It was for £1000 sterling.

The Municipality has at last resolved to put down the 'baile' nuisance in this city. Yesterday the Comision de Seguridad refused over a dozen applications for 'permisos' for these immoral reunions. For the future, we believe, a certain number of these dancing houses will be allowed, and no more. We need scarcely add that 'dancing,' in these vile dens, is merely a euphonistic mode of expressing all kinds of vice and debauchery.

On Sunday the 8th of the Line practised target shooting at 320 metres, on the site of the Tiro Nacional meetings. On Thursday the battalion struck the target 203 times, and on Sunday 225, which shows a decided improvement. One man was promoted and made a sergeant; out of six shots he struck the target as many times. We take this opportunity to congratulate Colonel Donovan and Major Saturnino Garcia on the efficiency and discipline of their model battalion.

The week has opened with a large supply of ready cash gold on the market which found immediate purchase by the banks for remittance purposes, coupon money. It seems that many of the houses held over their exchange gold from last week owing to the great drop in the market, full well aware that after the 1st fresh money would be in circulation from the payment of the quarter's dividend. Gold opened at 28.50 cash, dropped to 28 40 and closed at 28.45; the cash sales were very large amounting to 224,153 pats. Prices for end of month opened at 28.45, rose to 28.50, then dropped to 28.40, and closed at 28.45. The sales of the day amounted to 774.405 pats.

Cedulas are firmer, sold cash at 94, and for end of month 93¾.

National Bank Shares keep marching on, they opened at 80½ cash, and kept rising all day closing hard at 81½ cash, and this notwithstanding that 1186 shares were sold cash. The week has opened with a good business stir in almost every branch: spite of all that has been said and written about the fall in wool, Mr Patrick Ham has sold Mr Owen Lynch's wool of La Choza 3500 ar, at the splendid price of 120 m/c per ar, we compliment Mr Ham on this magnificent sale, and our old friend Mr Owen Lynch on topping the market in a moment so drowsy.

Messrs Duggan sold—

500 ar 96

In saladero produce we heard of the sale of a cargo at Guabiyu, 10,000 hides, 67 lbs at a reserved price, between 49 and 50 rls; also two sales of tallow one at Guabiyu at 13½ rls, and the other at Gualeguay 400 pipes 13½ rls.

In Corral n articles business is so very brisk that one importer laughed outright at the $3,000 a day sales, since his are far superior. In estancia lands and cattle there is really so much going on that we have no means to record all the sales; we hear of several sales of rodeos at 220-230, and 1500 head 10 per cent novillos at 220 on time.

Mr Rathje took leave of his numerous friends on Change, he sails for Europe in the North German Lloyd steamer.

Two or three farewell dinner parties are given this week to friends who leave in the Douro, the hegira seems unusually large, but we look for the return of all our friends next November, when everything will in the Plate be still more flourishing than at present.

Capt. Manton has received by Tycho Brahe a large consignment of telephones, they come in good time. Messrs Cayol & Neuman have commenced a suit against Mr Kaiser for Telephone patent &c.

The *Nacion* article on the return of the country to specie payments was the talk of the whole Bolsa; we give the article in our leading columns.

Freights rule the same, we hear of 800 bl. laden in 7 days at Barracas on board Leviathan by Messrs Hollman & Co.; this shows the great conveniences of the Riachuelo.

We hear that Mr Corrales, who is so well known in the market, did not go down to Patagones in the Vilarino, but in a sailing vessel.

Gold at afterhours ruled about the same 28.4-, for end of month. Bank shares very firm, buyers at 81¾. Several large purchases, the balance sheet is out to-day: it shows well for the bank, and the question about the Treasury Notes seems to be arranged, the Bank will therefore have so much more capital to work on in the market; purchases of shares were made to-day by one or two parties who leave this market for Europe.

Mr Nash's 5 English bulls (Booth blood) and 10 Lincoln rams ex Leibnitz will be sold by Baltar and Quesada on Saturday 9th inst. Estancieros take notice.

Exchange was done to-day at 49⅝-49¾, but the first-class German drawers hold out for 49¾, and some refuse even 9/16. Bills on Paris at 5.23, and Antwerp 5.25; on Rio 11.200.

The sale of 7,000 B. Aires dry hides for America market at 57 rls. reported.

At Mr Turner's yard in the Boca they are now discharging a first rate lot of full posts, very straight and moderately heavy. Estancieros take note. Nandubay posts are more saleable to-day than kid gloves or high heeled boots.

The Sales at afterhours were—

Captain A Sensine, of the splendid French steamer Precurseur, was warmly welcomed on 'Change by his numerous friends. This is his second voyage to the Plate. It is probable that, in consequence of the Shipping Bounties, his company will build several more steamers for the River Plate trade. The Precurseur is loading for Havre and will sail on 13th.

Thanks to the attention of Mr Lynes van Blaroom, of San Francisco, and Mr Geo. F. Brown, of New York, we have received the most wondrous sheet, or yearly review, of Californian trade for the last year, teeming with the most extraordinary figures. The following summary, under the head Facts to be remembered, may interest this market—

Imports 1880	$f. 38,971,121
Exports do to foreign countries	29,273,506
Do do by rail	33,000,000
Gold and silver coined in San Francisco Mint	37,427,000
Precious metals produced	73,422,000
Lead product on coast	6,000,000
Wheat crop, centals	31,000,000
Barley do, do	9,000,000
Wool clip, lbs.	46,074,154
Vintage, gallons	10,000,000
Fruit crop	3,550,000
Lumber, feet	214,385,166
Population California, Jan. 1st, 1881	870,000
Population San Francisco do	250,000
Product, precious metals on coast since 1848 $f.	2,217,486,186
Inward tonnage, 1880	724,208
Outward tonnage, do	749,095

We hold the paper at the disposal of our readers, should they like to see it. The figures are simply stupendous.

Messrs Baltar & Quesada have published the list of their payments to the newspapers for advertisements during last month. The list has indeed surprised the market, since no one could have supposed that large as is their auctioneering business they could afford to pay in one month the enormous sum of $4,810 m/c. The following is the list:—

La Republica	$ 1,000
La Tribuna	1,000
The Standard	4,500
The Herald	3,450
La Prensa	10,230
El Nacional	10,280
La Patria Argentina	10,300
La Nacion	10,480
Impresiones	3,480
	$54,810

We very much doubt if in London, New York or Paris, or any of the great capitals of Europe, and where advertisements are charged three times as much as in this city, that there can be found an auctioneering firm to pay such an amount for their advertisements. We accept the list as another speaking proof of the immence business doing in this market, and as the majority of Messrs Baltar & Quesada's auctions is made up of live stock, the greater their sales the greater the country's prosperity.

A new telegraph cable is about to be laid between the cities of Parana and Sta Fe. We suppose the cost will not be very great, although we must admit the trade between the two places hardly justifies the expenditure. Santa Fe is a sleepy hollow, and but for the colonies we should only hear from it once a year. Parana might become a place of greater importance, if the country around was more ploughed up; it is pleasantly situated, but seems to have no connection with the rest of Entre Rios. Its local trade is lime, and lime burners as a rule seldom send telegraph messages. The cable, therefore, has more political than commercial importance.

The suspension of the Public Land sales by the Governor has given rise to much comment, and although His Excellency has published a decree explaining the causes of the suspension, the farmers and estancieros who were watching with keen interest the sale, and who are very sharp people, have come to the conclusion that the Government will sell no more lands on its previous terms; and as the demands for those lands has increased, so also will the Government valuation. The affair has been much talked of in the market, as many parties who wanted to buy lands were holding back for this great auction. They will now have to buy the National Government lands, which are also in great request.

The judicial auction of the estancia in the 9 de Julio, announced in our columns for the 8th inst., will not come off, the whole stock on the place having been bought by one party at the judicial valuation, and the Judges approve of the sale.

It is thought very probable that Governor Romero will have to alter the terms of his decree respecting the Riachuelo Loan, and as there are several offers from abroad the loan will in all probability have to be a foreign loan. As to raising the money in this market on the terms proposed by the Governor, it is out of the question, except the bonds are paid to the contractors for the works, in which case the operation will prove doubly onerous for the country. One thing very remarkable is shewn by this business, and that is the avidity with which European capital catches at these enterprises. If the Southern Railway were to propose to-morrow, and it is what it ought, to extend their line from Azul to Bahia Blanca, the capital necessary would be subscribed for in London on the shortest notice. We never recollect a time when there was more foreign capital flowing into this country than at present.

It may possibly interest a few in this market to know that the Italian Expedition to the South Pole has burst up, and all our preparations for this much talked of expedition have proved unnecessary. The Italian Government, however, has offered to carry out the expedition at the expense of the Argentine Government, which offer, we understand, has been declined. It is probable that the Republic loses nothing through the failure of the expedition.

The earnings of the Southern Railway for the month of last January showed a splendid traffic on that line:—

47,860 passengers
17,853 tons cargo
195 horses
2,424 sheep
28 cows
121 pigs
$6,127,957 total earnings.

The cargo is divided as follows—

Wool	5,017	tons
Horse hair	22	"
Hides	136	"
Sheepskins	701	"
Tallow	18	"
Hay and grain	1,744	"
Other cargo	10,211	"

We recommend to the market the very splendid assortment of Teas at Mr J O Hall's renowned Tea warehouse in Calle Reconquista. There is probably at no other house in town such a selection as at Mr Hall's; some of his teas are worth 300 m/c a pound, and we hear that the Confiterias Del Gas and the Aguila are his chief customers for these very expensive teas. We, for our part, ask no better tea than what he supplies the market with at 20 m/c a pound.

Merchants and others may be interested in knowing that a coaling station will be started at the new Argentine port of San Blas, and that the conveniences of the bay are such that no lighters are required for loading or discharging vessels, as Mr Gibson informs us vessels can move alongside and planks be laid across from the bank to the ship. The depth of water at low tide in the bay at the anchorage is seven and eight fathoms. The Government will shortly send down in one of the gunboats an "agrimensor" to survey and mark out the new town. The Messrs Buckland, English estancieros, live within a league of the bay, and have very fat flocks of sheep.

En nuestra casa, San Martin 51,
El Viernes 8 de Abril,
A las 2 de la tarde,
Venderemos al mejor precio y dinero de contado en uno o mas lotes y por cuenta del Sr D. Matias Ramos Mejia, este magnifico rodeo, compuesto de:
650 cabezas mestizas Durham, verdaderas Short-horn, que se pusieron en rodeo en un solo potrero, alambrado desde el año 1862, tienen por origen el troso mas escojido de la hacienda que vendio en esa epoca la afamada estancia del Sr Alfaro (de Canuelas) habiendo sido anteriormente del origen de los primeros introducidos al pais por el Sr. Miller y nunca han sido servidas sino por toros puros de lo mejor, importados uno y otros de la renombrada cabaña de los 'Tapiales,' por cuya razon tiene este ganado la misma pureza de sangre, ofreciendo la ventaja que la paricion de los ultimos anos esta toda orejana.
Es precisamente de este ganado de donde se extrajeron las magnigcas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuartas de leche sin apurarlas.
En el rodeo que se vende hay gran cantidad de estas tamberas.
Se ve, pues, tomando su origen y la fecha (1862) que este ganado es clasificado de mestizo por su propietario, cuando sus cruzas las clasifican hoy de ¾ y ⅞.
La venta se hara por todo lo que pisa.
Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un breck a 4 caballos, que en 2½ hora conducira a los a los interesados a visitar las haciendas hasta Mari-Huincul.
